

What happens when 2000 testing experts focus on quality?

Predictable Quality through
Independent Testing

MindTree

MindTree Testing Philosophy

With a singular focus on quality, MindTree has a dedicated Testing Business Unit with a defined vision and mission. The business unit is driven by the following guidelines:

- Focus on customer business objectives with end-user’s perspective
- Testing starts right at the design stage
- Test management means managing for quality
- The best work is done by people with “testing mindset”; hire them and retain
- Leverage testing ecosystem to offer comprehensive testing solutions
- Good governance needs metrics to measure its own effectiveness
- ROI is not just about cost. It is also about quality, risk, and time to market

“The fact that independent testing is a dedicated career path at MindTree is proving to be a great value-add for my testing needs”

Program Manager, DP World, Dubai

MindTree Differentiators

- **Focus -** Delivering predictable quality through independent testing
- **Culture -** ROI culture for risk reduction and predictable quality
- **Excellence -** Competency through training, innovation through research, predictable quality through rigorous methodology
- **Depth -** Tested 2000+ products and enterprise applications from chip to cloud
- **Domain Expertise -** Defined testing solutions for 13 industry domains
- **Solution Accelerators -** Proprietary tools and frameworks driving productivity and quality improvements
- **Thought Leadership -** Part of ISO working group in defining new testing standard - ISO/IEC 29119

ISV Customers

Enterprise Customers

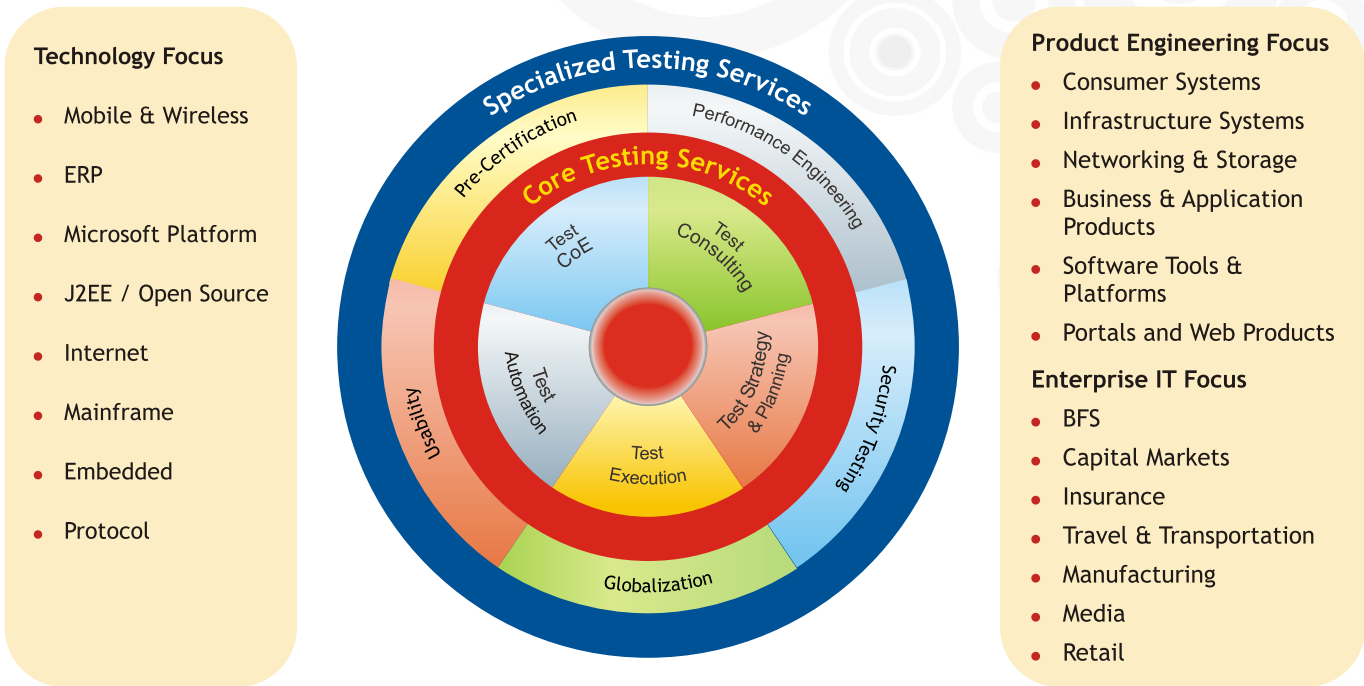

Customer benefits we have delivered

- 80% savings on hardware costs, and reduced test execution time by 45% for a server lifecycle management product
- 80% reduction in test automation framework maintenance time for a travel and expense management solution
- 70% increase in performance of application query execution for an enterprise application platform
- 0.25 Million GBP annual savings for an insurance and financial services provider

MindTree's Independent Testing Services

MindTree offers comprehensive independent testing services to customers in enterprise IT and product engineering:

MindTree Test Accelerator Kit

The MindTree Test Accelerator Kit is a repository of over 30 proprietary tools and frameworks for specific types of testing and domains.

Productivity++	Security Testing	Performance / internationalization	Test Automation	Domain Specific
<ul style="list-style-type: none"> • Virtual Test Lab • Generic Studio • Internet Rapid Test Framework (iRTF) 	<ul style="list-style-type: none"> • In-Secure IDs • Web Application Analyzer (AWAA) 	<ul style="list-style-type: none"> • Performance Testing Framework • Linmon Framework • Pseudo Translation Tool • Localization Administration Application 	<ul style="list-style-type: none"> • Automation Test Framework • Selenium Automation Framework • Windows Automation Library • QTP Extension Library • Web-based Test Automation Framework 	<ul style="list-style-type: none"> • Communication Test Framework • MindTree Insure • SOA Test Harness for Travel & Transportation • eBanking Test Framework • SAP Testing Framework

"MindTree, as our independent testing partner, imparted a level of professionalism and collaboration prominent throughout the project, not to mention good responsiveness and flexibility. They embraced the project wholeheartedly and in so doing, demonstrated their commitment in delivering project scope with quality, on time, and efficiency."

Section Manager, Decision Support Solutions Procter & Gamble

Testing Pillars of Excellence

MindTree drives predictable quality, innovation, and competency in its domain based testing solutions through its pillars of excellence: MindTest, Test Labs, and Testing Academy.

MindTest

MindTest, MindTree's testing methodology, defines consistent processes, best practices, and governance mechanisms across the testing BU. MindTest's guidelines can be tailored to specific requirements in any domain, technology, or specific type of testing.

MindTest

Core Strengths

Test Labs

Test Labs is the Testing BU's innovation and R&D center. Key focus areas include:

- Building new testing solutions
- Creating internal and external thought leadership
- MindTree Test Accelerator Kit (TAK) - Building tools and frameworks that are both industry specific as well as industry agnostic

Test Labs

MindTree's specialized testing services, such as performance testing, security testing; and new testing services, such as SaaS testing, SAP testing, and Test Environment as a Service (TEAAS) are owned and delivered by the Test Labs.

Testing Academy

Testing Academy nurtures testing talent within the organization with a focus is on building careers in software testing. The academy follows a 3 step approach:

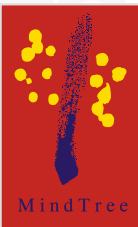

- Talent identification and nourishing
- Talent transformation
- Talent enrichment

MindTree encourages the pursuit of quality certification and internally certifies its testing minds through a rigorous examination process at the end of each training program.

Testing Academy
