Magnet 360 Announces Lightning Bolt Factory, for Salesforce Lightning Bolt, Empowering Companies to Deploy Faster with Partner-Built Industry Solutions

**New Lightning Bolt Factory from Magnet 360, the Mindtree Salesforce practice, offers an expedited way for businesses to create communities that improve communications with key audiences**

Salesforce Lightning Bolt allows partners to create and distribute Salesforce Bolt solutions—containing industry-specific functionality and design—that enable companies to jumpstart development of their portal or community.

**Minneapolis, April 24, 2018** – Today, Magnet 360, the Mindtree Salesforce practice, has introduced their new Lightning Bolt Factory—built on Salesforce Lightning—which enables businesses to implement Lightning Bolt-based communities and portals even faster and easier. Businesses across many industries are using Salesforce Lightning Bolts to set up customized online communities for a wide range of needs, from employee engagement to service and support to customer satisfaction. And with its new Lightning Bolt Factory, Mindtree’s Magnet 360 practice is making it easier for companies to access these communities and solutions.

Businesses across industries have varying levels of success engaging with customers, partners and employees online—whether it be on their website or social media platforms. Magnet 360’s Lightning Bolt Factory allows clients to bundle business-specific templates, apps and other Lightning components together so that they can go live with a community or portal faster and more cost-effectively. Lightning Bolt Factory helps shorten implementation time and save clients service costs.

“Salesforce Lightning is all about driving audience engagement—e.g. a portal to provide personalized service, or a platform that sends consumers offers customized to their preferences,” said Matt Meents, CEO of Magnet 360. “Our Lightning Bolt Factory is built on Magnet 360’s industry-specific expertise and deep knowledge of the Salesforce Platform. We can help businesses pick and choose the components they need, so that they can go-to-market with powerful digital communities that deliver meaningful experiences to drive sales, greater loyalty or more employee productivity.”

Magnet 360’s Lightning Bolt Factory’s industry-specific solutions include ConsumerConnect 360 for consumer goods, Patient Engage for healthcare, and Connected Manufacturing for manufacturing.

“Companies need to be able to quickly create and deploy industry-specific experiences that engage customers and partners, all connected to CRM,” said Mike Micucci, SVP and GM, Product, Salesforce Community Cloud. “Salesforce Lightning Bolt empowers a broad ecosystem of partners to package their expertise into new solutions that accelerate our customers’ time to market.”
Availability

- Built on Salesforce Lightning, Magnet 360’s Lightning Bolt Factory houses solutions including ConsumerConnect 360, Patient Engage, and Connected Manufacturing, which are currently available on the AppExchange.

About Salesforce AppExchange

Salesforce AppExchange, the world’s leading enterprise cloud marketplace, empowers companies to sell, service, market and engage in entirely new ways. With more than 5,000 solutions, 5 million customer installs and 70,000 peer reviews, it is the most comprehensive source of cloud, mobile, social, IoT, analytics and artificial intelligence technologies for businesses.
